Bureau of Shipping Point Inspection

The Fresh Fruit and Vegetable Inspection service was started in 1917. Until 1922 its authority was restricted to work in destination markets where the inspections were made by Federal Market Inspectors. In 1922 Congress extended the service to shipping points by adding to the authority the words, "when offered for interstate shipment."

When the work was extended to shipping points, Congress provided no additional funds for the expanded service requested by the industry. The Federal Department, working independently, could not collect fees and use them to pay the cost of the service. A plan was developed under which the inspection work at shipping point could be done under cooperative agreements with the states. These agreements provide that the inspectors are to be employed by the states and licensed by the Federal Department. The Federal Department supervises the inspection and certification work for which it is reimbursed by the state.

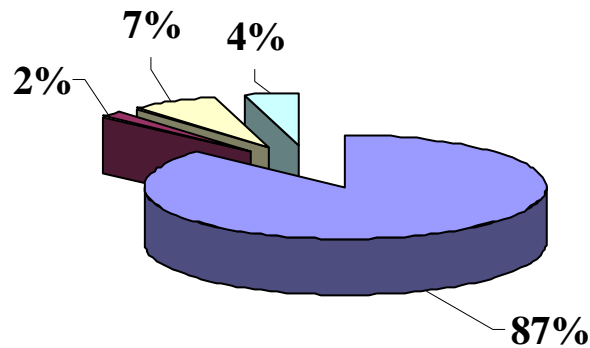

The operation is a joint Federal-State program entirely supported by fees collected from users of the service. The state collects fees and pays the inspectors' salaries and other expenses of operating the service. Applicable Federal and State laws and regulations and a Federal-State memorandum of agreement (AMS 12-25-A-20 and Amendments) govern its conduct. The Director of Agriculture, State of Idaho and the Chief of the Fresh Products Standardization and Inspection Branch, Fruit & Vegetable Division, AMS, USDA are its leaders.

The demands of the service are voluntary for certification on most fruits and vegetables however, potatoes and onions are under federal marketing orders each requiring compulsory inspection and certification on nearly all shipments. Potato and onion growers and processors also use the Federal-State Inspection Service to insure contract specifications are met and satisfy demands of sale at the farm gate.

The Bureau maintains the Boise headquarters staff along with four district offices, strategically located in the production areas. Present locations are; Caldwell, Burley, Blackfoot and Idaho Falls.

SAMPLING

There are three types of sampling employed.

1. **FEDERAL-STATE SAMPLING.** The sampler is a licensed employee of the Inspection Service. The Service assumes full responsibility for employees in this position, ensuring that proper sampling methods and procedures are followed.
2. **SUPERVISED SAMPLING.** The sampler is an employee of industry. Samplers are hired by the applicant. The Inspection Service assumes the responsibility of proper sampling methods and procedures, sample identity and security. Worksheets and certificates or computer printouts resulting from this type of sampling must indicate "Supervised Sampling" was used. If the supervisor believes that for one reason or another the sampling is not adequately supervised, it shall then be designated as "Submitted Samples."
3. **SUBMITTED SAMPLES.** Samples are drawn, marked and controlled by the applicant and submitted to the Service for grading. Worksheets and certificates or computer printouts resulting from this type of sampling must show "Submitted Samples."

Inspection and Grading for this type sampling is charged on an inspector hour basis at the current hourly rate.

MILEAGE CHARGE

An additional charge for mileage will be made in connection with other charges when travel is excessive in proportion to the amount of fees charged, or when unusual travel is required. The rate per mile is the amount that State employees are reimbursed, as allowed by the Board of Examiners.
